CUPolicyPro

has a new look... AND new features!

Advanced User Access Options

- Restrict viewing access to uploaded documents and published manuals
- Administer user access by function and down to the policy level

Improved Navigation

- Seamlessly switch to and from read-only and editing view
- Easily access latest news and updates, resources, and support

Editing Tools

- View the full editing history of each policy with one click
- Redline changes to CU policies

Information at Your Fingertips

- **Reference Model Policy information and updates while editing**
- **Search both CU and Model Policies simultaneously**

Team Collaboration

- Assign policy reviews and assignment notifications to users
